

CTANM – POLITEHNICA University of Bucharest (Romania)

POLITEHNICA University of Bucharest (PUB), founded in 1886, is now the largest technical university of Romania, with about 23000 students, 3300 full time staff, 1800 part-time faculty and 900 postgraduate students. The Center for Advanced Technologies (CTANM) is a research and training unit with financial and functional autonomy inside PUB, established in 1996, acting for defining and implementing both e-Learning current internal procedures and university's LLL far-future development strategy. The CTANM's funding is mainly realised through research and training contracts, with Romanian or foreign beneficiaries, by national, European or international projects.
